100. $= -\frac{2}{x^3}$

ACKNOWLEDGEMENTS

A most sincere expression of appreciation is extended to the following disciplines in education in the State of Iowa for their contribution and support in this career education follow-up publication:

State Board of Public Instruction

Area Schools

Student Personnel Services and
Career Education staff(s)

Local Secondary School Districts

High school counselor(s) and
Career Education staff(s)

The combined cooperative efforts of people are of utmost importance in this statewide career education follow-up effort. Further continuance of a combined cooperative effort to help study the significance of how we are meeting the career needs of students is anticipated.

INTRODUCTION

The identified population in this Career Education Follow-up study consisted of 15,182 students terminating enrollment in approved career education programs during the 1970-71 school year. The students surveyed included those who terminated an approved career education program either by completion or withdrawal before completion.

Data was collected at the secondary (grades 9-12) and first- and second-year post-secondary levels (area schools) on students who were enrolled in 260 secondary schools and 15 post-secondary schools offering approved career education programs.

LIMITATIONS

Information regarding the career education students was submitted on an MRC form (No. 2384) through a joint effort of local career education and guidance staffs. Printed instructions were provided by the Guidance Services Section as a guideline in recording the required information on the collection instrument. Numerous forms, however, were returned with less than completed data. The information outlined in the following pages is a summary of the data submitted by the local and area educational agencies.

Despite the fact that information was not available for all students terminating career education programs during the 1970-71 school year, the data compiled on the respondents serves as a sample of the total career education population in the State of Iowa.

WHEN EXAMINING THE INFORMATION, IT MUST BE UNDERSTOOD THAT THIS DATA DOES NOT REPRESENT ALL THE STUDENTS KNOWN TO HAVE BEEN ENROLLED IN APPROVED CAREER EDUCATION PROGRAMS FOR THE 1970-71 SCHOOL YEAR. THIS DATA IS A

REPRESENTATION OF THOSE STUDENTS FOR WHICH LOCAL AND AREA SCHOOLS SUBMITTED USABLE QUESTIONNAIRES.* INFORMATION FOR SOME SERVICE AREAS MAY NOT BE PRESENTED IN THE SUMMARY DUE TO INCOMPLETE DATA AVAILABLE.

METHOD

Using specifications provided by the Guidance Services Section of the State Department of Public Instruction, the Iowa Educational Information Center (IEIC), through the facilities of the Measurement Research Center (MRC), developed the Op-Scan questionnaire used to collect information for this study (see Appendix B). Using the questionnaire as a model, the Guidance Services staff developed a detailed set of instructions for completing the questionnaire (see Appendix C). Career education student enrollment figures were obtained through the cooperation of the Career Education Branch of the State Department of Public Instruction. Packages of materials, including questionnaires and instruction sheets, were put together for each school district with an approved career education program. There were 276 such school districts. These materials were mailed in the spring to all area schools and local educational districts having administered one or more approved career education programs during the 1970-71 school year.

The local educational districts and area schools returned the completed student questionnaires to the Department of Public Instruction. The questionnaires were then delivered to the Information Center, where all data was placed on magnetic data processing tape for analysis. The analysis resulted in state summary data presented in the pages which follow.

*A listing of local educational districts and area schools requested to submit data indicates the response of these districts in this follow-up effort was excellent. (See Appendix A)

Information was requested from secondary and post-secondary educational corporations as listed in this appendix for the 1971 follow-up study. Participation of these corporations in this effort is designated in the following manner:

x = data was returned ON TIME in acceptable form for data processing

- = data was not returned ON TIME or in acceptable form for data processing

The cooperation of local educational districts in this statewide career education follow-up effort was excellent from a large percentage of the school districts involved. A combined cooperative effort of participating districts is anticipated in future studies.

Instructions for
Completing Questionnaire

Follow-up of Students Terminating
Approved Preparatory Career Education Offerings
in the 1970-71 School Year

Instructions for Completing Vocational Education
Student Follow-up Questionnaire - 1971

Purpose of Study: The purpose of this study is to collect follow-up information regarding students terminating preparatory career education offerings during the 1970-71 school year; (Fiscal Year: July 1, 1970 - June 30, 1971).

Reasons:

1. To comply with U.S. Office of Education requirement of Annual Financial and Narrative Report for Vocational and Technical Education.

2. To provide common follow-up information to local and area school systems.

3. To provide useful follow-up data regarding students terminating approved preparatory career education offerings for state level planning, research and evaluation.

Population to be Surveyed: For the purpose of this study, the following persons must be surveyed:

1. All public secondary school students (grades 11-12) terminating enrollment in an approved preparatory career education offering (EXCLUDING Home Economics, Useful) during the 1970-71 school year. Questionnaires should be submitted only for the ninth- and tenth-grade students who withdrew by dropping out prior to the offering completion date, whether or not they remained in the institution. This does include special education students who are enrolled in these offerings.

2. All area school students terminating enrollment in an approved preparatory career education offering during the 1970-71 school year.

Definition of Terms

1. Enrollment: For the purpose of this survey, a student was enrolled in an approved preparatory career education offering if he officially enrolled in and attended at least one regular class meeting of a course offered in an approved preparatory career education offering.

2. Termination: A student may have terminated enrollment in the following manners:

A. Completion of the approved preparatory career education offering.

B. Withdrawal from an approved preparatory career education offering but retained status as a student at the institution.

C. Withdrawal from the secondary or post-secondary institution at which he was enrolled in an approved preparatory career education offering.

Instructions - 2

3. Approved Preparatory Career Education Offering: An approved preparatory career education offering is that which has met the requirements and provisions as established by the State Plan for Vocational Education.

* * * * *

NOTE

* * * * *

- * 1. All questionnaires identifying students terminating enrollment in approved career education offerings must be completed indicating status of student as of October 15, 1971.
- * 2. All completed questionnaires must be returned to the Guidance Services Section, Iowa Department of Public Instruction by November 15, 1971.
- * * * * *

Recommended Procedures for Implementing Follow-up

The completion of the questionnaires is viewed as the responsibility of the local or area school staff. The involvement of the most appropriate member(s) of the counseling and/or career education staff and the student is the discretion of the local and area school. It is of utmost importance that specific personnel be designated to assume the responsibility for the completion of this survey. The total effort is one that can best be accomplished, however, by counselor(s) and career educator(s) working together. It would seem most appropriate for the guidance and career education staff to meet after the October 15, 1971, status date to collectively verify the data to be submitted.

Complete one questionnaire for each student who terminated enrollment in an approved preparatory career education offering during the 1970-71 school year.

NOTE: If a student was enrolled in more than one approved preparatory career education offering, i.e., home economics gainful (09 02) and office education (14 03), complete one (1) questionnaire for that student for each offering in which the student was enrolled during the 1970-71 school year.

Use a regular lead pencil (No. 2) to record all information on the questionnaire. When marking an oval to record a response, shade the oval completely. Do not use ink or ball point when completing any part of the questionnaire.

* * * * *

It is suggested that you work with the student(s) in completing Side 1 in the spring.

1. Student Name (Last name, first name, middle initial)
2. Sex
3. Date of Birth
4. Classification of Student (Grade level)
5. Type of Program *

Secondary - Enrollment in an offering designed for high school youth (Grades 9-12).

Post-Secondary - Enrollment in an offering designed for youth and adults who have completed or left high school.

6. District Number - Example /1/2/3/4/

* * * * *

You, then, complete the following information on Side 1:

1. Date Terminated Program *
2. Special Needs area
3. Program * Completion Status

* Any reference to "program" on the questionnaire is synonymous with the term "offering" as used in these instructions.

Categorical Definitions For Counselor's Use In
Completion of Questionnaires

SPECIAL NEEDS category - Mark "Yes" if student is identified at the local level by the following criteria and is enrolled in a career education offering with special provisions being implemented in that offering for a specific need of the student.

Regular Offering with Supplementary Services - The student may be enrolled in a regular class with supplementary services being offered to the student. Some examples of supplementary services would be: vocational rehabilitation, additional counselor time, special tutoring, crippled children's services, etc.

Special Offering - A separate offering designed to meet the special needs of the enrolled students. This may involve a separate class period scheduled to provide this service.

Special Offering with Supplementary Services - This area would involve a student who is enrolled in a special offering and is also being offered supplementary services as indicated above.

PROGRAM COMPLETION STATUS category - Mark the two appropriate responses in this area (completed, did not complete, graduated, did not graduate). This category should be completed primarily for the 11th- and 12th-grade students. Ninth- and tenth-grade students would be surveyed only if they withdrew by dropping out from a career education offering prior to the offering completion date whether or not the student remained in the secondary school.

SIDE 2--STATUS OF STUDENT AS OF OCTOBER 15, 1971

Item 1 - If either response is marked, you may not respond to the remaining items.

Item 2 - If either of the following responses is marked, an appropriate response should also be given for Items 3, 5, and 6.

- Full time (40 hrs. or more per week)
- Part time

If either of the following responses is marked, an appropriate response should be given for Item 4 only.

- Not employed - seeking employment
- Not employed - not seeking employment

If you shaded the following response, GO TO BOTTOM SECTION OF THE QUESTIONNAIRE.

- Employment status unknown

Item 7 - If either of the following responses is marked, an appropriate response should also be given for Items 8, 9, and 11.

- Continuing education full time
- Continuing education part time

If you shaded the following response, GO TO ITEM 10.

- Not enrolled in educational program

Item 10- Mark appropriate response.

NOTE: ITEMS 2, 7, and 10 (brown shaded areas) MUST BE MARKED UNLESS ITEM 1 HAS A RESPONSE.

CHECKLIST

- ☐ DO NOT CHANGE marked items on program identification header sheet.
- ☐ Place all questionnaires behind program identification header sheet in the original program identification folder.
- ☐ Obtain the following signatures on program identification header sheet (MRC 2385):
 - ☐ Career education staff member responsible for student follow-up information
 - ☐ Building counselor responsible for student follow-up information
 - ☐ Local superintendent
- ☐ Place rubber band or string around entire folder containing questionnaires.

SUBMIT ALL PROGRAM FOLDERS CONTAINING COMPLETED QUESTIONNAIRES TO:

Edward L. Ranney, Consultant
Guidance Services Section
Iowa Department of Public Instruction
Grimes State Office Building
Des Moines, Iowa 50319

Should you need additional questionnaires or if you wish further assistance regarding the implementation of this follow-up effort, contact the above-named person or call 515-281-3425.

DO NOT REPRODUCE QUESTIONNAIRES LOCALLY OR USE LAST
YEAR'S (RED) QUESTIONNAIRES. THANK YOU.
